The air conditioner unit.

The first 2 pictures, is the air conditioner that was in my unit when I moved in.

The last picture is a cleaned airconditioner unit

I asked Matt Acres, is that a new air conditioner?

He said no. He just cleaned it. Prior to that, I pulled out the air conditioner filter, that hasn't been cleaned since I moved in.

The 3rd picture dated 9/16/2013, the day before the 2nd eviction court 9/17/2013

Besides it looking new, the air conditioner filter is on the opposite side.

On her bill email she charged me for her job as the landlady. see attached email.

Doreen Doshay Russell knew, her inspections all those years and never once made an attempt to fix.

These are the conditions I had to endure due to Doreen Doshay Russell's neglect of the property and hatred of me for more then one reason.

outside pic of the translucent green plastic next to the plants.

This was removed from Unit #1 after Katy Dollie moved out.

It was part of the remodel.

New kitchen, hardwood floors, new refrigerator new stove & the rent raised to \$950.00, her rent was the same as mine, I believe \$697.00 a month.

The outside of unit #1 after it was remodeled.

**2 days after eviction court

I had to put towels down

**2nd towel & I added a
container to stop the
overflow, it filled up quick.**

Still not fixed.

Matt Acres cleaned the shower using bleach, a bleach pen/stick.

This caused damage to the tiles.

The last picture, those dots are from the bleach.

The would not come off using water.

The next day was the 2nd day of eviction court 2/17/2013

These are the conditions I had to endure due to Doreen Doshay Russell's neglect of the property and hatred of me for more then one reason.

The blinds and the wall.

The blinds would turn a different color, all of them in the entire unit, even the kitchen.

I would clean them every few months.

With windex and paper towels.

There is mold in the walls, that's causing this.

The mold in the walls is not my responsibility, it's Doreen Doshay Russell's.

The day before eviction court 9/17/2013

The east wall with the air conditioner got painted but only that section, not the entire wall, they stopped at the blinds.

She is the owner, not me.

By LAW, she's responsible and accountable.

She told me verbally, that because I moved in, I accepted it. This was not disclosed before I moved in, in 2009.

These are the conditions I had to endure due to Doreen Doshay Russell's neglect of the property and hatred of me for more than one reason.

The Kitchen Stove never used Oven.

The 1st picture is with the plastic cover on the stove.

Doreen Doshay Russell was aware of this.

She showed this picture to the judge in court from her Iphone and told him how disgusting the shape it was in, she neglected to tell him about the plastic cover. He would have never noticed it.

Another lie to the Judge as well as deception.

The 2nd and 3rd pictures with the plastic peeled off.

The condition of the stove itself are fine.

The plastic cover itself is a hazard, it could have caught on fire.

The ceiling fan/air duct vent in the kitchen.

It's filled with black gunk.

This was suppose to be cleaned, every year.

Doreen Doshay Russell refused, please see attached email.

09.16.2013 17:04

Doreen Doshay Russell refused to honor her father's agreement not to mention breaking the law, city codes etc and of course she never complied with the Judge's order to fix everything in the unit.

Another lie in court to the Judge, she told him everything was fixed.

This is behind the stove.

You can see the gas pipe, behind it.

It's dangerous to clean behind it, you need professionals, otherwise something can happen.

The kitchen cabinets and sink.

You can see the condition of the cabinets themselves as well as the sink.

Karen Freemon corked around the sink with new grout because it was old and gross.
